

Review Access to Automated External Defibrillators (AEDs) and First Aid Kits (FAKs) from GVR Tennis Courts

Part 2 of 3 – Las Campanas & Madera Vista Tennis Courts

Notes:

- (1) Aid Stations incorporate both a Defibrillator (AED) and a First Aid Kit (FAK).
- (2) Recreation Centers at East, Las Campanas, Madera Vista, Desert Hills and Canoa Hills all have Aid Stations close to the main entrance lobbies. The Exception is the West Center which only has an AED?

Las Campanas Center – Tennis Courts

No AED or FAK on the tennis courts or any signage as to where they may be found.

The nearest Aid Station can be found inside the Racquet Ball Center but the entrance door needs a GVR card to open. Once inside, the Aid Station can be found immediately on the RH side on the North wall.

The main LC building can also be accessed by the main doors on the North side, which remain unlocked during normal hours, but is a very long way from the tennis courts. All the main building side doors need a GVR card to open.

Exit gate from LC tennis court.

Note no AED or FAK signage.

Note small faded AED sign adjacent to the GVR card operated door.

Racquet Ball Center Aid Station is immediately on RH side of entrance.

Racquet Ball Center Aid Station is immediately on RH side of entrance.

Madera Vista Center – Tennis Court

No AED or FAK on the tennis court or any signage as to where they may be found.

One advantage of this smaller center is that you need a GVR card to access the complex but once in you have ready access to all the areas including the pool, tennis courts and Aid Station.

The Aid Station can be found in the main entrance area in the North West corner (see picture).

Madera Vista Sign-in area.

Note from here the access to the court is on the left (GVR card operated gate).

One of two exits from tennis court.
Note no AED or FAK signage.

Exit from pool area.

Madera Vista Main Entrance

Aid Station in the NW corner of the main entrance.

Main entry gate to MV center – GVR card operated.
